SATURDAY, MAY 25 9AM – 3PM

\$5.50 each for a 4" x 4" X 5" deep pot  
4 or more plants \$5.00 each

### HEIRLOOM & OPEN-POLLINATED TOMATOES

**Valencia** – Heirloom. 8 – 10 Oz. fruits with meaty interior, few seeds. Farmer favorite! Indeterminate. Days to maturity: 76 days.

**Taxi** – Heirloom. Lemon-yellow, 4-6 oz. fruits. Sweet, easy to grow. Concentrated early set. Determinate. 64 days.

**Moskvich** – Heirloom. One of the earliest of tomatoes, deep red, cold-tolerant. 4-6oz. Semi-determinate. Days to maturity: 60 days.

**Rose de Berne** – Heirloom, 10 oz. round fruits great for slicing. Deep pink. Meaty & flavorful. Indeterminate. Days to maturity: 78 days.

**Rutgers** – Open-pollinated. Outstanding slicing, cooking and canning tomato. Medium-size. The original Campbell's Soup tomato. Indeterminate. Days to maturity: 75 days.

**Bing Cherry** – Open-pollinated. Fruity and sweet with perfectly balanced acid, in clusters of 1" fruit. Does well in hot and dry conditions. Days to maturity: 65 days.

**Pruden's Purple** – Heirloom. Potato-leaved. Silken, meaty, 1 lb. tomatoes. Great sandwich tomato rivaling Brandywine. Indeterminate. Days to maturity: 72 days.

**Legend** – Open-pollinated. Full-sized tomatoes with a balance of sweet & acid flavor. Great for containers! Resistant to late-blight. Determinate. Days to maturity: 65 days.

**Carbon** - Highly productive, black heirloom with excellent flavor. 10-14 oz. fruit, dark-olive shoulders. Indeterminate. Days to maturity: 76 days.

**Black Cherry** – Heirloom. Rich, sweet and complex flavor. Abundant producer. Indeterminate. Days to maturity: 65 days.

**Tommy Toe Cherry** – Heirloom. Vigorous plants with hundreds of 1-inch cherries, unfazed by heat or humidity. Flavor is old-fashioned, full, complex. Originated in the Ozarks around 1900. Indeterminate. Days to maturity: 75 days.

**Pink Berkeley Tie Dye** - Open-pollinated. Compact plants produce beautiful 8-12 oz. fruit with very sweet, rich tomato flavor. Wine-colored skin, metallic green stripes are as striking as its flavor. Indeterminate. Days to maturity: 65-75 days.

**San Marzano Plum** – Open-pollinated. Classic Italian paste tomato. Heavy yields. Few seeds. Indeterminate. 80 days.

**Marmande** – Heirloom. Bush plants produce 4-6 oz flat, lightly ribbed, red fruits in clusters. Good firmness & flavor, very dependable yields outdoors even in cool summers. Traditional variety from the south of France. Semi-determinate. Days to maturity: 60-65 days

**Cherokee Purple** - Heirloom. Averaging 10–13 oz, with dusky brownish-purple skin, dark green shoulders and brick-red flesh. The real attraction is their rich Brandywine flavor. Days to maturity: 77 days.

**Black Prince** - Heirloom. From Irkutsk. Iridescent 5–7 oz garnet-colored globe-shaped fruits. Flavor similar to that of Black Krim, but without Krim's fragility and tendency to crack. Heavy yielding. Indeterminate. Days to maturity: 75 days.

#### ADDITIONAL FAVORITES

**Honey Bunch Grape** – Hybrid. Red grape tomato. Rivals Sun Gold Cherry for sweetness. Holds very well on the vine and is crack resistant. Indeterminate. Days to maturity: 45 days.

**Sun Gold Cherry** – Hybrid. Without Sun Gold there is no summer. Deep sweetness with a hint of acid. Ripens early and produces until frost. Indeterminate. Days to maturity: 57 days.

**Jet Star** – Hybrid. Consistent, high-yielding plants. Fruits rarely crack and have outstanding flavor. Compact indeterminate. Days to maturity: 72 days.

**We'll have some peppers and eggplants, too.**  
**Come early for best selection!**
